Omschrijving

The Oluce Berlin 720 is a wall lamp that can also be used as a ceiling lamp. The lamp shade is made of anodized brass. The diameter of the light is 30 cm, which makes it the smallest of the wall and ceiling lights from this series. The diffuser is made of sandblasted wire glass, which is produced by continuous rolling or casting. The lamp emits direct light and general room light. The lamp is operated with two E14 LED retrofit bulbs.
