Omschrijving

The Ingo Maurer Mozzkito is a table lamp with a projection of 80 cm. Depending on how the movable lamp base is aligned, the inclination of the lamp can be set differently. As a result, the height of the table lamp varies to a maximum of 80 cm. In addition, the reflector of the lamp can be variably adjusted. As a light source, a halogen cold light reflector or a suitable LED can be used. The cable has a length of 300 cm. The 230Volt table lamp is infinitely dimmable with a slide control. The 125Volt lamp can only be switched via a switch on the supply line.
