Omschrijving

The Catellani & Smith Stchu-Moon R ceiling lamp is installed into the ceiling. An installation cut-out with a diameter of at least 13 cm is required. The lamp has a total diameter of 14 cm. The shade is made of aluminum and coated with an irregular foil. This recessed lamp is available with different surfaces: gold-, silver- and copper-plated. The light is emitted directly and reflected from the irregular surface. An LED reflector lamp is used as the light source.
