Technical details

Land van fabricage	 Verenigd Koninkrijk
fabrikant	Anglepoise
ontwerper	George Carwardine
jaar	2012
bescherming	IP20
Omvang van de levering	LED 230 Volt
Projectie in cm	72
materiaal	aluminium, het smelten, staal, textiel
kabellengte	200 cm
dimmen	dimbaar op locatie
base/versie	E27
schakelbaarheid	aan de lijn
Vermogen (max. Watt)	20 Watt
LED	inclusief
Schaduw diameter	16 cm
schermhoogte	14 cm
kandelaar Dimensions	26 cm
bulb vervangen:	ter plaatse zelf
lichtverdeling	direct

Omschrijving

The Anglepoise Original 1227 Floor Lamp is a lamp with two movable arms. The lamp arms can be readjusted at any time using tension spring technology and remain in any set position. The lamp shade can be tilted and rotated. The tension spring technology used for this lamp was developed in the 1930s by industrial designer George Carwardine for the British manufacturer and is still used today for numerous Anglepoise lamps.

This floor lamp is available in jet black, dove grey and linen white. For each version, lamp shade, lamp arms, lamp rod and lamp base are in the chosen surface. Both the lamp rod and the lamp shade are glossy lacquered in each version. The lamp shade and the lamp arms are made of aluminum, the lamp rod of steel. The cast iron base has a steel cover. An on/off switch is integrated in the cable. LED retrofit or compact fluorescent lamps are suitable as light sources.
