## Guise 2262

### Technical details

|                                   |  |
|-----------------------------------|--|
| <b>Land van fabricage</b>         |  Spanje |
| <b>fabrikant</b>                  | Vibia  |
| <b>ontwerper</b>                  | Stefan Diez  |
| <b>jaar</b>                       | 2018   |
| <b>bescherming</b>                | IP20   |
| <b>Omvang van de levering</b>     | LED  |
| <b>Diepte in cm</b>               | 3  |
| <b>Diameter in cm</b>             | 92   |
| <b>materiaal</b>                  | aluminium, borosilicate  |
| <b>kabellengte</b>                | 300 cm   |
| <b>dimmen</b>                     | sensor dimmer  |
| <b>Wattage</b>                    | 17,2 W   |
| <b>LED</b>                        | inclusief  |
| <b>Kleurweergave-index</b>        | >90  |
| <b>Lichtstroom in lm</b>          | 897  |
| <b>Kleurtemperatuur in Kelvin</b> | 3.000 warm wit   |
| <b>Dimensions</b>                 | Ø 92 cm  |

### Omschrijving

The Vibia Guise 2262 is a wall lamp with a diameter of 92 cm. The designer Stefan Diez uses a glass disc with a hidden LED to create a ring of light around the lamp when the lamp is switched on. The light source itself remains invisible. When switched off, the lamp almost fuses with the background. The wall light can be dimmed via an optical sensor and is connected via a cable with plug.
