Omschrijving

Vibia presents a pendant lamp with the Guise 2272 where the light source is invisible, emanating directly from the material. The light is equipped with a counterweight placed on the ground. With a cable with plug for this reason it is not necessary to have a power supply on the ceiling. The Vibia Guise 2272 is dimmed and switched by an optical sensor on the lamp. On request, this pendant lamp is also available with a special cable length.
