

Vibia

Palma 3700

Oberfläche

- graphite grey
- wit

Technical details

Land van fabricage	 Spanje
fabrikant	Vibia
ontwerper	Antoni Arola
jaar	2018
bescherming	IP20
Omvang van de levering	LED
Diepte in cm	25
materiaal	aluminium, glas
dimmen	1-10V dimbaar
LED	inclusief
Kleurweergave-index	>90
Kleurtemperatuur in Kelvin	2.700 extra warm wit
prestaties van het systeem	2 x 4,6 Watt
Totale lichtstroom in lm	868
Dimensions	H 19 cm L 55 cm

Omschrijving

Vibia presents with the Palma 3700 an individual vertical wall lamp. Its timeless sphere of light evolves towards the organic. Slightly flattened like the shape of the Earth, it emits a warm and adjustable light. The lamp is offered in a matt lacquered graphite-grey surface. The standard colour temperature is 2.700 Kelvin extra warm white. On request, the wall lamp is also available with a colour temperature of 3,000 Kelvin warm white or 4,000 Kelvin white.

It's part of a lighting family that introduces the planting normally associated daylight in the outdoors, to an indoors setting. The Palma collection also makes possible multiple globe compositions, vertical and horizontal in order to create visual axes on a larger scale, integrating vegetation. It can also be used as an individual globe. With this approach numerous options are made possible. One of the most innovative is the use of multiple wall sconce lamps for public spaces.
