Omschrijving

Vibia presents with the Palma 3740 a table lamp with blown glass sphere that gives off a warm lighting effect that takes over interior spaces with a wrap-around luminance that is both comforting and reassuring. Palma's design is based on elemental forms, its luminous quality expressed through a warm quality dimmable light. Filtered by two glowing half spheres of blown opal glass, joined together by an aluminum ring, in a graphite-grey or white finish. Both surfaces are matt lacquered. The integrated LED has a colour temperature of 2,700 Kelvin extra warm white, on request the table lamp is also available with a colour temperature of 3,000 Kelvin warm white or with 4,000 Kelvin white.
