Omschrijving

The Oluce The Globe 828 OR is a pendant lamp with a transparent mouth-blown glass. Inside this glass there is an integrated metal lamp socket in which the light source is located. The light is emitted directly from the lamp into the room. This lamp has a gold satin anodised bronze surface. The transparent glass has a diameter of 30 cm and is 27 cm high. Both halogen lamps and LED retrofit lamps are suitable as light sources. The Globe lamps were designed in 1964 by Joe Colombo and have been reinterpreted by Oluce since 2015.
