One Piece 6 LED

Oberfläche

- bronzen
- metallic grijs
- wit

Technical details

Land van fabricage	 Duitsland
fabrikant	Mawa
ontwerper	Martin Wallroth
bescherming	IP20
Omvang van de levering	LED
Diepte in cm	15
materiaal	aluminium, borosilicaatglas
dimmen	dimbaar met fase- en fase-afsnijding en fase-regelingsdimmer
Wattage	24 W
LED	vervangen door professionele
Kleurweergave-index	>90
Lichtstroom in lm	1.533
Kleurtemperatuur in Kelvin	2.700 extra warm wit
lichtverdeling	indirect
Dimensions	H 4 cm B 20 cm

Omschrijving

The Mawa One Piece 6 LED is a wall lamp that emits its light upwards to the ceiling and the wall behind it. The ceiling illumination reaches evenly and deeply into the room. A cover made of borosilicate glass is integrated on the lamp, which ensures a soft light gradient. The ceiling floodlight is made from a single piece of aluminum using the folding technique. It is available in white matt, dark bronze and DB702 grey metallic surfaces. All surfaces are powder-coated. As standard, the One Piece 6 LED wall light has a colour temperature of 2700 Kelvin extra warm white. On request, it is also available with 3000 Kelvin warm white or 4000 Kelvin white. The wall lamp is dimmable on site with a leading edge or trailing edge phase dimmer. On request, it is also supplied as DALI dimmable version. The One Piece 6 LED is 14.5 cm deep and 20 cm wide.
