Omschrijving

The Serien Lighting Reflex2 Ceiling S150 ceiling lamp has a black, rounded frame structure made of aluminum. This lamp is 15 cm high. Length and width are 20 cm each. The reflector is available in matt white, gold, silver or white. Depending on the reflector colour, a different lighting mood is created.

The Reflex2 Ceiling S150 has the Dim2Warm function, which imitates the dimming behaviour of classic incandescent lamps that is perceived as pleasant when dimming. This not only makes the light darker when dimmed down, but also changes its colour temperature from 2,200 Kelvin extra warm white to 3,000 Kelvin warm white. On request, the lamp is also available with 2,700 Kelvin extra warm white, 3,000 Kelvin warm white, DALI, 1-10 Volt or dimmable with Casambi module.
