Omschrijving

The Serien Lighting Curling Suspension Rope Acryl clear S has a lamp shade made of clear acrylic glass, through which the light is emitted evenly downwards and to the sides. This Curling suspension lamp is available in three versions: with a colour temperature of 2,700 Kelvin extra warm white, 3,000 Kelvin warm white or with dim to warm function. When dimmed, the lamp with dim to warm function imitates the dimming behaviour of classic incandescent lamps, which is perceived as pleasant. When dimmed down, the light not only becomes darker but also changes its colour temperature. The colour temperature changes from 1,800 Kelvin extra warm white to 3,000 Kelvin warm white. In addition to this pendant lamp, the Curling Suspension Rope Acryl clear M with a shade diameter of 22 cm is also available from the lamp series.
