#### Omschrijving

The Serien Lighting Curling Suspension Rope Acryl clear M is a pendant lamp with stainless steel cables. During the assembly, the lamp can be individually determined in its total height between 15 cm as well as 195 cm in height. Its lamp shade made of clear acrylic glass has a diameter of 22 cm and a height of 9 cm.

The Curling Suspension Rope Acryl clear M is available from Serien Lighting with a colour temperature of 2.700 Kelvin extra warm white, 3.000 Kelvin warm white or with dim to warm function. The lamp with dim to warm function imitates the dimming behaviour of classic incandescent lamps, which is perceived as pleasant. In this way, its light not only becomes darker when dimmed down, but also changes its colour temperature. The colour temperature changes from 1,800 Kelvin extra warm white to 3,000 Kelvin warm white. The Curling lamp with clear acrylic glass lamp shade is also available with a shade diameter of 16 cm.
