

Serien Lighting

Curling Wall new silver S

Farbtemperatur in Kelvin

- Dim to warm
- 2.700 extra warm wit
- 3.000 warm wit

Technical details

Land van fabricage	 Duitsland
fabrikant	Serien Lighting
ontwerper	Jean-Marc da Costa und Manfred Wolf
jaar	2020
bescherming	IP20
Omvang van de levering	LED
Diepte in cm	9
Diameter in cm	18
materiaal	aluminium, glas, polycarbonaat, polymethylmethacrylaat
dimmen	dimbaar met fase- en fase-afsnijding en fase-regelingsdimmer
Wattage	11 W
LED	inclusief
Kleurweergave-index	>97
bulb vervangen:	ter plaatse zelf
Dimensions	Ø 18 cm

Omschrijving

The light of the Serien Lighting Curling Wall new silver S is emitted diffusely to the front and radiated glare-free all around. This creates a play of light on the polished metal and the mouth-blown glass surfaces. The lamp has a diameter of 25 cm and a depth of 11 cm.

The Curling Wall new silver S is available in three versions: with a colour temperature of 2,700 Kelvin extra warm white, 3,000 Kelvin warm white or with dim to warm function. The lamp with dim to warm function imitates the dimming behaviour of classic incandescent lamps, which is perceived as pleasant. Thus, when dimmed down, the light not only becomes darker but also changes its colour temperature. The colour temperature changes from 1,800 Kelvin extra warm white to 3,000 Kelvin warm white when dimmed. In addition to this lamp, a Curling wall lamp with a shade in new silver is also offered, which has a diameter of 25 cm.
