Omschrijving

The Foscarini Light Bulb is a table lamp made of mouth blown glass and aluminum. The lamp is available in black and white versions. In both versions the lower part of the lamp is white. In the black version, the light is emitted only from the base of the lamp, while in the white version the light is also emitted through the upper, bulb-shaped part. An LED with a colour temperature of 2,700 Kelvin extra warm white is integrated as the light source. A dimmer is integrated on the transparent supply line.
