

Grupa Baluna Ceiling

Technical details

Land van fabricage	 Kroatië
fabrikant	Grupa
bescherming	IP20
Omvang van de levering	LED 230 Volt
materiaal	opaalglas, staal
oppervlak	zwart
kabellengte	500 cm
hoogteverstelling	hoogte verstelbaar
dimmen	op de ophanging
base/versie	E14
Vermogen (max. Watt)	6 Watt
LED	inclusief
luiifel Dimensions	9 cm
Schaduw diameter	20 cm
bulb vervangen:	ter plaatse zelf
Dimensions	H 136 - 203 cm

Omschrijving

The Grupa Baluna Ceiling is a height-adjustable ceiling lamp. It can be adjusted in height between 136 cm and 200 cm. Its glass shade can be rotated 360 degrees around its own axis. It is made of triple-coated and mouth-blown opal glass. The lamp shade has a diameter of 19.7 cm. Directly above the shade is a built-in dimmer at the end of the suspension.

The ceiling suspension of the Baluna Ceiling and the canopy are made of black, powder-coated steel. They are finished and assembled by hand. The lamp is available in other finishes on request. The Baluna Ceiling can be connected via a supply cable with a length of 500 cm. When mounted on a ceiling connection, the supply cable can also be removed if required.
