Omschrijving

The Betec Obelisk 1900 floor lamp has a height of 190 cm. An LED is integrated vertically over almost the entire length of the lamp, which emits its light into one direction. This allows the light to be indirectly directed to the wall behind the lamp, for example. The Obelisk 1900 is made of brass in a German manufactory in traditional craftsmanship, whereby craftsmanly care is applied in the surface treatment. The floor lamp is offered in the surfaces glossy chrome or matt nickel. An LED with a colour temperature of 3,000 Kelvin warm white is integrated as illuminant. The Betec lamp can be switched and dimmed continuously via a touch dimmer on the lamp. The cone-shaped lamp base has a base plate with a diameter of 29.4 cm.
