

Domus Bolino

Technical details

Land van fabricage	 Duitsland
fabrikant	Domus
jaar	2006
bescherming	IP20
Omvang van de levering	Leuchtmittel/ Bulb
Projectie in cm	90
materiaal	aluminium, hout, Lunopal
hoogteverstelling	hoogte verstelbaar
dimmen	cord dimmer
base/versie	G9
schakelbaarheid	aan het armatuur
Vermogen (max. Watt)	60 Watt
lampenkap kleur	wit
Schaduw diameter	22 cm
totale hoogte	150 cm

Omschrijving

The Domus Bolino is a floor lamp made of beech wood, adjustable in height between 115 cm and 150 cm. The maximum projection of this floor lamp is 90 cm. The light source of the Bolino floor lamp by Domus is surrounded by a white lamp shade made of Lunopal. Lunopal is a high-quality shade material that was developed by Domus. This material is thermally highly resilient and can withstand temperatures of up to 100°C. Lunopal is white transparent and gives the impression of fine Japanese paper. The completely environmentally friendly material is UV-resistant and does not yellow. The lampshade of the Domus Bolino has a diameter of 22 cm. This lamp has a G9 socket that can be operated with halogen lamps or LEDs. The Bolino floor lamp is regulated with a LED-compatible dimmer on the supply cable, not with a sensor dimmer on the lamp arm (as shown in the picture).
