<b>materiaal</b>	hout, Lunopal, textiel
<b>dimmen</b>	dimbaar op locatie
<b>base/versie</b>	E27
<b>Vermogen (max. Watt)</b>	75 Watt
<b>lampenkap kleur</b>	wit
<b>Dimensions</b>	H 24 cm   B 24 cm

#### Omschrijving

The lampshade of the Domus Iris wall lamp opens upwards and is held by a rounded wooden element made of beech. The white shade of the Domus Iris wall lamp is made of Lunopal. Lunopal is a high-quality shade material that was developed by Domus. This material is thermally highly resilient and can withstand temperatures of up to 100°C. Lunopal is white transparent and gives the impression of fine Japanese paper. The completely environmentally friendly material is UV-resistant, washable and does not yellow. The lamp is 24 cm wide, 24 cm high and has a projection of 16 cm. The Domus Iris has an E27 socket and can be operated with conventional halogen bulbs as well as with LED retrofit bulbs.
