Omschrijving

The light pendant lamp of the Iris series by Domus presents itself lively and graceful. It consists of nothing but two rounded Lunopal shades, held by a solid wood element made of beech. The semi-circular ends of the element protrude cheerfully from the shade and give the lamp its characteristic appearance. Lunopal is white transparent and gives the impression of fine Japanese paper. The environmentally friendly material is UV-resistant, washable and does not yellow. Whether used in groups over a dining table or suspended low as a lamp over the bed, Iris will inspire any ambience with the atmospheric filtered light of the Lunopal and the simplicity of the design. The black 200 cm long textile cable of this height-adjustable lamp deliberately contrasts with the white lampshade. The pendant lamp Iris has an E27 socket and can be operated with conventional halogen bulbs as well as with LED retrofit bulbs.
