materiaal	keramisch, metaal
oppervlak	wit
dimmen	dimbaar op locatie
base/versie	E27
Wattage	75 W
bulb vervangen:	ter plaatse zelf
lamp inclusief	geen

Omschrijving

The Spotzki angular by the German lighting manufacturer Lichtlauf can be mounted as a wall or ceiling lamp. This white lamp has a 45 degree angled bracket made of white metal and illuminates walls or objects. The Lichtlauf Spotzki angular is rotatable by 180 degrees. This lamp is 16 cm high including bulb and has a diameter of 8.5 cm. The delivery of the light run lamp includes a surface-mounting box, which enables the rotatability of the lamp by 180 degrees. This lamp has a high-quality E27 ceramic socket and can be operated with reflector lamps. The ceramic socket is also suitable for other light sources with E27 base. The Spotzki angular by Lichtlauf is available in the cable colours white, red and grey. This lamp is also available as a vertical, straight version. Cables in special colours are also available on request. The lamp is delivered without bulbs.
