Omschrijving

The Bover Kira A/01 is a small shelf and a wall lamp in one. It is 17 cm high and 24.5 cm wide. Its depth is 8.2 cm. This wall lamp in the shape of a shelf has a matt white structure and has an internal light source with which it is illuminated itself. Part of the light is also emitted into the room.

The Kira A/01 wall lamp is offered with switch / push button dimmer or without switch. The push button dimmer is located on the lower shelf. The panel with the push button dimmer can be mounted so that the push button dimmer is on the left or right side of the lamp. By pressing the push button dimmer, three brightness levels can be set: 33 %, 66 % and 100 %. With a memory function, the last set light intensity is saved and automatically set again the next time the lamp is switched on. The lamp without switch can be dimmed on site with a trailing edge phase dimmer. The Kira has a fresh and light design and is primarily intended for use in bedrooms.
