### Omschrijving

The lampshade of the Nans S/55 Outdoor model is woven by hand with a more elaborate pattern that combines different types of fibre weave in a single layer. It differs from the rest of the collection in that it contains an elliptical polycarbonate diffuser that softens the light and prevents glare. The stainless steel and aluminium canopy is graphite-brown. The suspension of the luminaire can be shortened if required. Its maximum total height is 200 cm. The light is available in different colours.
