

Holtkötter

Supernova GT

Oberfläche

- aluminium
- messing
- platina
- zwart
- wit

Technical details

Land van fabricage	 Duitsland
fabrikant	Holtkötter
ontwerper	Holtkötter
jaar	2023
Projectie in cm	56,5
materiaal	Aluminium
hoogteverstelling	hoogte verstelbaar
Wattage	16 W
LED #	inclusief
Kleurweergave-index	>90
Lichtstroom in lm	2500
Kleurtemperatuur in Kelvin	2.200-2.850
bescherming	IP20
Omvang van de levering	LED
dimmen	Touch dimmer op lampvoet
kandelaar Dimensions	18 cm
lampkop massa	18 cm
bulb vervangen:	bij de fabrikant / fabriek

Omschrijving

With 2500 lumens and a colour rendering index of >90, the Holtkötter Supernova GT leaves nothing to be desired in terms of the light emitted. The lamp head, which can be rotated and swivelled in any direction, allows the light to be directed in any direction. The light rod of the Holtkötter Supernova GT can also be tilted by 15° - 60°. The touch dimmer with memory function on the base of the lamp allows the brightness to be continuously adjusted. When dimming, the light colour of the integrated LEDs changes to a warmer tone (from 2,850 Kelvin warm white to 2,200 Kelvin warm white) thanks to dim-to-warm technology. If necessary, the LEDs can be replaced by the manufacturer. The Holtkötter Supernova GT is available in matt aluminium, anodised brass, platinum, white and black. In the anodised brass model, the luminaire rod is black; in all other models, the lamp rod and luminaire head have the same finish.
