### Opis

The Vibia Wireflow 0330 - 0332 is a linear pendant light. The integrated LEDs with 4.5 watts each provide a direct, pleasant light output to the bottom. The Wireflow 0330 - 0332 can be dimmed by the customer. The lamp is available in two versions, which differ only in the way the 5 lamp elements are suspended from the canopy. With the Wireflow 0330, the outer two light elements and the middle one are suspended lower than the other two. With the Wireflow 0332, the two outer light elements hang highest, the second light element from the left and the second from the right slightly lower and the one in the middle lowest. The lowest light body is in the middle. If the pendant length of the lamp should be different, please send us an individual request. The length of the lamp cannot be shortened by the user. The pendant lamp is also available as a DALI dimmable version on request.
