Opis

The Vibia Suite 6027 is available in brown and white and can be referred to as a multifunctional design object: it can be used as a floor lamp, wall lamp, table lamp or functional furniture. It has a base and as a wall mount, four shelf boards, a USB charging port and eight efficient LEDs.

On the top shelf board a dimmable reading light is installed separately. This reading light with its tilting and swiveling lampshade has another LED. The reading light is kept in the color mink matt Pantone 407c matte. Whether next to the bed, as unusual bedside table, next to the couch or as a shelf in a corner - the functional Vibia Suite 6027 makes everywhere a good impression. At the bottom of the shelf below the USB port are the switches for switching the lamp on and off and for dimming the reading light.
