<b>Strumień świetlny w lm</b>	1.269
<b>Temperatura barwowa w stopniach Kelvina</b>	2.700 extra biała ciepła
<b>Dimensions</b>	H 23 cm   B 30 cm

## Opis

The Vibia set 7760 is a single-lamp LED wall lamp with a width of 22 cm. In the lower part of the lamp a 9 watt LED is housed, which radiates its light upwards. The top of the Set 7760 is rotated 360°. So the light of the lower part can always derive differently and there is a fascinating game of light and shadow.

The Set 7760 is designed by Xuclà and is available in white-matt and matt mink. As a single lamp the Set 7760 is useful virtually anywhere. Whether as an individual lamp or in combination with other set lights, this wall lamp is always well received. When used with other lamps Set lights, fascinating objects are creating on the wall. The LED is on site dimmable at 0-10 volts. As standard, this lamp has a colour temperature of 2,700 Kelvin extra warm white; on request, it is also available with 3,000 Kelvin warm white or 4,000 Kelvin white.
