Opis

The Foscarini Allegro Ritmico Halogen is a pendant lamp made of lacquered metal. The adjacent lines let float the light in a balance and create a refined light composition. Due to the strong presence of light, it characterizes the atmosphere in both the private and the public sectors. This is the halogen version with two different bulbs which are separately switchable.

With a height of 81 cm and a width of 75 cm at its widest point, this Foscarini light is particularly suited to accentuate and emphasize spatial concepts. The pendant lamp is held in graphite-grey.

The Allegro Ritmico Halogen is attached to a circular canopy with three ropes. The length of the ropes can be determined individually and can be selected as needed.
