Opis

The Nyta Tilt Globe Wall without cable is a swivelling and rotating wall lamp. Along an elongated opening on the shade, it can be tilted by a maximum of 125 degrees and rotated by 360 degrees. The lamp is mounted directly on the power outlet. The matt lacquered aluminum shade is connected to the wall bracket via a polished stainless steel rod. The shade is available in white, black and grey. It is always white from the inside. The wall bracket has the matching surface to the shade. The on/off switch is integrated on the wall bracket. LED retrofit or halogen lamps are suitable as light sources. Besides this wall lamp without cable, a version with cable is also available.
