

# Vibia

## Guise 2260

### Technical details

<b>Kraj produkcji</b>	 Hiszpania
<b>producent</b>	Vibia
<b>projektant</b>	Stefan Diez
<b>rok</b>	2018
<b>ochrona</b>	IP20
<b>zakres dostawy</b>	LED
<b>Głębokość w cm</b>	3
<b>Średnica w cm</b>	54
<b>tworzywo</b>	aluminium, borokrzemian
<b>długość kabla</b>	300 cm
<b>ściemnianie</b>	Czujnik ściemniacza
<b>Moc w watach</b>	10 W
<b>LED</b>	łącznie
<b>Wskaźnik oddawania barw</b>	>90
<b>Strumień świetlny w lm</b>	445
<b>Temperatura barwowa w stopniach Kelvina</b>	3.000 biała ciepła
<b>Dimensions</b>	Ø 54 cm

### Opis

With the Vibia Guise, Stefan Diez has discovered a new potential use for LED technology in contact with matter: The light emanates from the piece of glass, while the source remains invisible. With this approach Guise achieves a magical effect and at the same time is fully functional. Because of the transparency of the glass when switched off, the lamp almost disappears. When switched on, it expresses a luminous and almost magnetic presence.

The wall lamp version with a different formal expression features a glass disc that gives off a perimeter glow where the LED light source is also hidden. When turned off, it becomes fused with its background, when on, it evokes a solar eclipse. Vibia presents a wall lamp that integrates the LED light with the glass and making it pass through in such a way that it becomes invisible and then allowing it to appear out of nowhere. The Guise 2660 has a diameter of 54 cm.
