Opis

The Stilnovo Lama S is a thin light wire in a minimalist body design. The double opal polycarbonate diffuser melts into press-folded aluminum foils, from which a topLED light is emitted. The angular shape of the ceiling lamp and the double emission of light emphasize the illuminating body, depriving it of contrasts and marked shadows. The Lama S as a thin ceiling light is particularly suitable for lighting environments such as offices and accommodation facilities. Available in white or black, Lama has been awarded the Red Dot Design Award 2011.
