### Opis

This Stilnovo Reflexio has a diameter of 65.4 cm. The topLED light source, which is located around the inner perimeter, is not visible. Through the reflector, the light is scattered and evenly distributed in the room. Thus the light is glare-free. This light is available in two surfaces for the outside part: black and white. The inside is always white. The lamp can be used as a wall or ceiling lamp. It can be dimmed on site and can also be dimmed with an optionally available Casambi module via Smartphone App.
