Opis

The Oluce Plume 158 is a wall lamp with a lamp arm that can be swivelled by approx. 160 degrees. Its lamp shade can also be rotated so that the light can be individually adjusted again and again. The wall lamp made of lacquered metal emits direct light. The lamp shade is folded in the centre. The Plume 158 has a surface of anodised bronze and a depth of 80 cm. The lamp is regulated by a switch on the supply line. Both halogen lamps and LED retrofit lamps are suitable as light sources.
