Opis

The Catellani and Smith 56 Petits Bijoux pendant lamp consists of ten ring-shaped brass elements on various levels. Together they form a spherical lamp. A total of 56 LEDs are integrated on these elements, each of which is mounted behind a lens. The light emitted is bundled through the lenses into the room. At the same time, the light creates numerous reflections on the lamp. The integrated LEDs are interchangeable. The 56 Petits Bijoux has a diameter of approx. 120 cm and can be dimmed on site. Its white canopy is 9 cm high and has a diameter of 32 cm.
