Opis

The Cini & Nils Sferico transparent is a pendant lamp for direct and indirect light. Transparent lenses are integrated in the lamp, which focus the light upwards and downwards. The lamp is available in the surfaces white, silver matt and gold matt. The cables of the pendant light can be shortened if required. Two LEDs, each with a colour temperature of 2,800 Kelvin warm white, are integrated as light sources. The Sferico transparent is dimmable on site with a trailing edge phase dimmer. On request, the lamp is also available with an integrated Casambi module, with which it can be dimmed via Bluetooth using a smartphone/tablet. The series also includes a pendant lamp for diffuse room lighting with two opal lenses.
