Opis

The Foscarini Gem Terra is a floor lamp with a mouth blown acid etched glass with relief. The lamp has a height of 187 cm and is available in gold, graphite and white versions. Its base and rod are in the matching finish. The glass has a diameter of 43 cm and a height of 39 cm. The light is emitted through the glass glare-free and evenly in all directions. When switched on, numerous light reflections are created on the relief of the glass surface. A dimmer is integrated on the Gem Terra supply line. The floor lamp has an E27 socket that can be operated with halogen lamps, LEDs or compact fluorescent lamps.
