### Opis

The Catellani & Smith Giuletta W is a wall lamp from the designer Enzo Catellani. He designed the lamp in 2013 with an ring-shaped lamp head made of metal which is connected by a 30 cm long flex arm with the wall bracket. So new lighting situations can be created repeatedly. As light source is installed an LED with a colour temperature of 2,700 Kelvin extra warm white.

The wall lamp is available with a black lamp arm. The wall mounting is also black. The ring which serves as lamp head for the light is offered in black or metal nickered colours. This lamp is dimmable with an optical sensor dimmer on the lamp head whereby four brightness levels can be set.
