Opis

The LDM Drop Quattro Surface-mounted consists of four height-determinable Drop pendant lamps on a rectangular canopy. The lamps of this chandelier emit their light focused and homogeneously downwards through frosted optical lenses. The Drop Quattro Surface-mounted is available in the surfaces polished aluminum, matt aluminum, bronze, white and black matt. The canopy is 200 cm long and is supplied in the same colour as the ordered lamps. The multiple pendant lamp has a maximum cable length of 200 cm. As standard, the pendant lamp is supplied with black cables, which can be shortened if required. On request, the lamp is also available with other cable lengths and colours. The individual lights have a distance of 60 cm from each other.

The quadruple pendant lamp is offered in three versions: dimmable on site with a trailing edge phase dimmer, DALI dimmable or with integrated Casambi module. The DALI version requires a 5-core mains cable. With a Casambi module, the lamp can be operated via smartphone or tablet using the Casambi app via Bluetooth. Casambi technology also offers the possibility of regulating several suitable lamps in groups.

When dimming the Drop Trio Surface-mounted, the light colour of the integrated LEDs changes to a warmer tone (from 3,000 Kelvin warm white to 1,800 Kelvin extra warm white) due to the used Dim-to-warm technology. LDM also offers a single, a double (on request) or a triple lamp from the Drop series. Height-adjustable Drop Move pendant lamps from the series are also offered.
