Opis

The LDM Santo Gala Grande is a pendant lamp with a length of 240 cm. Four LEDs are integrated next to each other in the lamp, which emit most of their light directly downwards. Via two sensor dimmers, the two left and the two right LEDs can be switched and dimmed in pairs without touching. A wiping hand movement in the respective sensor area switches two LEDs on or off. To dim the light of two LEDs, the hand is held in the sensor area for a longer period of time.

The Santo Gala Grande is made of aluminum and is available in polished aluminum, silver metallic, bronze, black and white matt. All surfaces except polished aluminum are powder-coated. The lamp is suspended from the ceiling by two cables, two power connections are required on the ceiling. The LDM pendant lamp has a total height of 115 cm, special cable lengths are also available on request.
