### Opis

The Chiaroscuro floor lamp has a delicate and visually light body consisting of three half arches with a special triangular cross-section. It is both simple and expressive thanks to its structure, which alternates matt and glossy surfaces made of extruded, liquid-coated aluminium and PMMA longitudinal prisms, ensuring both light transmission and pleasant light distribution. The Foscarini Chiaroscuro reinterprets the classic luminator and enriches it by emitting a strong, indirect light from the LED spotlight at the top, as well as indirect light onto the wall or diffuse ambient light at the sides. The luminaire is available in a dark red or titanium structure. The cord dimmer on the supply cable allows the brightness to be individually adjusted.
