

Holtkoetter

Supernova GT

Oberfläche

- aluminium
- mosiądz
- platyna
- czarny
- biały

Technical details

Kraj produkcji	 Niemcy
producent	Holtkoetter
projektant	Holtkötter
rok	2023
Projekcja w cm	56,5
tworzywo	Aluminium
regulacja wysokości	z regulacją wysokości
Moc w watach	16 W
LED #	włacznie
Wskaźnik oddawania barw	>90
Strumień świetlny w lm	2500
Temperatura barwowa w stopniach Kelvina	2.200-2.850
ochrona	IP20
zakres dostawy	LED
ściemnianie	Ściemniacz dotykowy na podstawie lampy
świeczniku Wymiary	18 cm
Głowica lampy Wymiary	18 cm
wymiana żarówek:	u producenta / w fabryce

Opis

With 2500 lumens and a colour rendering index of >90, the Holtkötter Supernova GT leaves nothing to be desired in terms of the light emitted. The lamp head, which can be rotated and swivelled in any direction, allows the light to be directed in any direction. The light rod of the Holtkötter Supernova GT can also be tilted by 15° - 60°. The touch dimmer with memory function on the base of the lamp allows the brightness to be continuously adjusted. When dimming, the light colour of the integrated LEDs changes to a warmer tone (from 2,850 Kelvin warm white to 2,200 Kelvin warm white) thanks to dim-to-warm technology. If necessary, the LEDs can be replaced by the manufacturer. The Holtkötter Supernova GT is available in matt aluminium, anodised brass, platinum, white and black. In the anodised brass model, the luminaire rod is black; in all other models, the lamp rod and luminaire head have the same finish.
